Index to Volume 74 (January-June)*

Abdel-Gawad, A. M.; Kerr, P. F.: Alteration of Chinle siltstone and uranium emplacement, Arizona and Utah 23

Adirondacks
†Metasomatic origin of large parts of phacoliths. A. E. J. Engel; C. G. Engel 349
†————————: Discussion. A. F. Buddington 353

Age determinations (*See* Geochronology)
†Age of intrusive rocks of southeastern San Gabriel Mountains, California. K. J. Hsu; George Edwards; W. A. McLaughlin 507

†Agron, S. L.: Anomalous magnetization in sandstone near Newport, Rhode Island 77

Aguachile beryllium-bearing fluorspar district, Coahuila, Mexico. W. N. McAnulty and others 735

Alabama Geological Society, Organization of . . . . . P 95 (June)

Alteration of Chinle siltstone and uranium emplacement, Arizona and Utah. A. M. Abdel-Gawad; P. F. Kerr 23

American Society of Agronomy and affiliated societies meeting, Denver, Colorado, 1963 . P 77 (May)

Amos, D. H.: Petrology and age of plutonic rocks, extreme southeastern Maine 169

†Amsden, T. W.: Silurian stratigraphic relations in central part of Arbuckle Mountains, Oklahoma 631

†An outrageous hypothesis for tectonic pattern of North American Cordillera. D. U. Wise . . . 357

Analyses
Chemical
Barite. Keiichi Omori; P. F. Kerr 709
Dolomitic limestones, Kingston, Ontario, Canada. J. E. Gillott 759
Teton glacial rock flour. W. D. Keller; A. L. Reesman 61
Modal
Plutonic rocks, extreme southeastern Maine. D. H. Amos 169
Spectrometric
Clays, mudstones, and siltstones, Colorado Plateau, Arizona and Utah. A. M. Abdel-Gawad; P. F. Kerr 23
Statistical
Textural variation within quartz diorite pluton (Twelvefoot Falls pluton), northeastern Wisconsin. W. B. Wadsworth . . 243
X ray
Orthopyroxenes in mafic rocks, southeastern Maine. D. H. Amos 169

Analysis and review of sandstone classifications in North American geological literature, 1940-1960. G. deV. Klein 555

Announcements
American Society of Agronomy and affiliated societies meeting, Denver, Colorado, 1963 . . . . . P 77 (May)
Ardmore Geological Society field trip, Arbuckle and Wichita Mountains, October 1963 P 95 (June)
Clay Minerals Conference, Atlanta, Georgia, 1963 . . . . . P 25 (January)
Four Corners Geological Society Field Conference, 1963 . . . . . P 25 (January)
International Conference on Permafrost, Lafayette, Indiana, 1963. . . . . P 29 (April)
—Congress for Quaternary Research, Boulder, Colorado, 1965 . . . . . P 77 (May)
National Conference on Earth Science, Banff, Alberta, Canada, 1963 . . . . . P 29 (April)
Organization of Alabama Geological Society . . . . . P 95 (June)

†Anomalous magnetization in sandstone near Newport, Rhode Island. S. L. Agron 77

Apennines, Italy, Gravity tectonics near Passo della Cisa. B. M. Page 655

Ardmore Geological Society Field trip, Arbuckle and Wichita Mountains, October 1963 . P 95 (June)

Are we retrogressing in science? M. K. Hubbert 365

Argentina Coastal Plain, Geophysical investigations in submerged. M. Ewing; W. J. Ludwig; J. I. Ewing 275

Arizona
Alteration of Chinle siltstone and uranium emplacement. A. M. Abdel-Gawad; P. F. Kerr 23
†Breccia pipe near Cameron: Discussion. Alexander McBirney 227
†————: Reply. P. F. Kerr; Jonathan Barrington 233

Atkinson, D. R. (With W. N. McAnulty and others): Aguachile beryllium-bearing fluorspar district, Coahuila, Mexico 735

Atlantic Ocean
†Heavy minerals of U. S. South Atlantic continental shelf and slope. O. H. Pilkey . . . 641
Rocks of northern part of Mid-Atlantic Ridge. S. H. Quon; E. G. Ehlers 1

Australia, Wanderrie banks: micro-relief patterns in semiarid Western. J. A. Mabbutt 529

†Barrington, Jonathan (With P. F. Kerr): Breccia pipe near Cameron, Arizona: Reply . 233

†Bassett, W. A.; Giletti, B. J.: Precambrian ages in Wind River Mountains, Wyoming . . 209

†Bassett, W. A.; Kerr, P. F.; Schaeffer, O. A.; Stoenner, R. W.: Potassium-argon ages of volcanic rocks near Grants, New Mexico 221

†—: Potassium-argon dating of late Tertiary volcanic rocks and mineralization of Marysvale, Utah 213

Belt Series in southwestern Montana, LaHood Formation. W. J. McMannis 407

Benedict, P. C.: Memorial to Daniel De Necker Wiid. . . . . P 47 (May)

*Full titles of papers are in **boldface** type
†Short Note

†Bent, A. M.; Wright, H. E., Jr.: Pollen analyses of surface materials and lake sediments from Chuska Mountains, New Mexico 491
Beryllium-bearing fluorspar district, Coahuila, Mexico, Aguachile. W. N. McAnulty and others 735
†Biological homogenization in fossil underclays and seat rocks. M. G. Rutten 91
†Bowes, D. R. (With A. E. Wright): Classification of volcanic breccias: A discussion 79
Bradley, John Hodgdon, Jr., Memorial to. A. S. Huey . . . . . P 31 (May)
Bradley, W. C.: Large-scale exfoliation in massive sandstones of Colorado Plateau 519
Breccia
Cathedral Cliffs Formation, early acid breccia unit of northwestern Wyoming. W. G. Pierce. 9
†Breccia pipe near Cameron, Arizona: Discussion. Alexander McBirney 227
†————: Reply. P. F. Kerr; Jonathan Barrington 233
Brill, K. G., Jr.: Permo-Pennsylvanian stratigraphy of western Colorado Plateau and eastern Great Basin regions 307
British Columbia, Late Tertiary volcanic rocks and plant-bearing deposits. W. H. Mathews; G. E. Rouse 55
†Broecker, W. S.; Farrand, W. R.: Radiocarbon age of Two Creeks forest bed, Wisconsin . . . 795
†Brown, Bahngrell: Stochastic variables of geologic search and decision: Comments 241
Brown, Roland W., Memorial to. Sergius Mamay . . . . . P 79 (June)
Bryozoa, standard Chazyan Series, New York and Vermont, Ordovician cryptostome. J. P. Ross . 577
†Budding, A. J.: Origin and age of superficial structures, Jicarilla Mountains, central New Mexico 203
†Buddington, A. F.: Metasomatic origin of large parts of Adirondack phacoliths: A discussion . 353
†Bushee, Jonathan; Holden, John; Geyer, Barbara; Gastil, Gordon: Lead-alpha dates for some basement rocks of southwestern California 803
Calcutta Silt, a very early Pleistocene deposit, upper Ohio Valley. H. D. Lessig. 129
California
†Age of intrusive rocks of southeastern San Gabriel Mountains. K. J. Hsu; George Edwards; W. A. McLaughlin 507
†Lead-alpha dates for some basement rocks of southwestern. Jonathan Bushee and others . 803
Potassium-argon dates of some Cenozoic volcanic rocks of Sierra Nevada. G. B. Dalrymple 379
Structure and mode of emplacement of Caribou Mountain pluton, Klamath Mountains. G. A. Davis 331
Canada
†Cretaceous sediments in central Nova Scotia. I. M. Stevenson; D. C. McGregor 355
†Involutions in surficial deposits, northwestern Ontario. R. F. Sutton 789
Late Tertiary volcanic rocks and plant-bearing deposits in British Columbia. W. H. Mathews; G. E. Rouse 55
Petrology of dolomitic limestones, Kingston, Ontario. J. E. Gillott 759

Pollucite-bearing Montgary Pegmatite, Manitoba. C. M. Wright 919 (7)
San Benito Islands, Baja California, Mexico. L. H. Cohen and others. . . 1355 (11)
Petrology of Jeffersonville Limestone (Middle Devonian) of southeastern Indiana. R. D. Perkins 1335 (11)
†Physical properties of erupting Hawaiian magnas. G. A. Macdonald 1071 (8)
Pierce, W. G.: Reef Creek detachment fault, northwestern Wyoming 1225 (10)
Pleistocene
†Additions to classical sequence of Pleistocene glaciations, Sierra Nevada, California. R. P. Sharp; J. H. Birman . . 1079 (8)
Glacial drainage in Devils Lake region, North Dakota, Late. Saul Aronow . . 859 (7)
— events and relative sea-level changes in northern Puget Lowland, Washington, Late. D. J. Easterbrook 1465 (12)
Pleistocene volcanism and deformation of Truckee area, north of Lake Tahoe, California. P. W. Birkeland 1453 (12)
Pollen analyses of surface materials from southern San Juan Mountains, Colorado. L. J. Maher, Jr. 1485 (12)
— diagrams from southeastern Minnesota: Problems in regional late-glacial and postglacial vegetational history. H. E. Wright, Jr.; T. C. Winter; H. L. Patten 1371 (11)
Pollucite-bearing Montgary Pegmatite, Manitoba, Geology and origin. C. M. Wright. 919 (7)
†Poole, W. H.; Béland, J.; Wanless, R. K.: Minimum age of Middle Ordovician rocks in southern Quebec 1063 (8)
†Possible occurrence of exceedingly high pressures in geological processes. J. C. Jamieson 1067 (8)
Postglacial vegetational history, southeastern Minnesota, interpreted from two pollen diagrams. H. E. Wright, Jr.; T. C. Winter; H. L. Patten 1371 (11)
Precambrian
Correlations and problems in Belt Series stratigraphy, northern Idaho and western Montana. J. E. Harrison; A. B. Campbell. 1413 (12)
Precambrian ancestry of Colorado mineral belt. Ogden Tweto; P. K. Sims 991 (8)
Pressures and moisture content of halloysite and dickite clays, Relationship between high overburden. G. V. Chilingar; H. H. Rieke, III; J. O. Robertson, Jr. 1041 (8)
Proceedings of 16th Annual Meeting of Rocky Mountain Section of GSA, Albuquerque, New Mexico, May 1963. John de la Montagne . . . . . P 115 (7)
Pseudoleucite and associated problems of alkalic rock systems, Experimental studies bearing on origin of. R. F. Fudali . . . 1101 (9)
Puget Lowland, Washington, Late Pleistocene glacial events and relative sea-level changes in northern. D. J. Easterbrook . 1465 (12)
Pushkar, Paul (With L. H. Cohen and others): Geology of San Benito Islands, Baja California, Mexico 1355 (11)
†Quebec, Minimum age of Middle Ordovician rocks in southern. W. H. Poole; J. Béland; R. K. Wanless 1063 (8)
Raleigh, C. B.; Griggs, D. T.: Effect of toe in mechanics of overthrust faulting . 819 (7)
†Reed, J. C., Jr.; Bryant, Bruce; Hack, J. T.: Origin of some intermittent ponds on quartzite ridges in western North Carolina 1183 (9)
Reef Creek detachment fault, northwestern Wyoming. W. G. Pierce 1225 (10)
Relationship between high overburden pressures and moisture content of halloysite and dickite clays. G. V. Chilingar; H. H. Rieke, III; J. O. Robertson, Jr. . 1041 (8)
Reso, Anthony: Composite columnar section of exposed Paleozoic and Cenozoic rocks in Pahranagat Range, Lincoln County, Nevada 901 (7)
Rhode Island
Seismic refraction profiles, Narragansett Bay. J. W. Berg, Jr. 1305 (11)
Rieke, H. H., III (With G. V. Chilingar; J. O. Robertson, Jr.): Relationship between high overburden pressures and moisture content of halloysite and dickite clays 1041 (8)
Rivers on Great Plains, Sinuosity of alluvial. S. A. Schumm 1089 (9)
Robertson, J. O., Jr. (With G. V. Chilingar; H. H. Rieke, III): Relationship between high overburden pressures and moisture content of halloysite and dickite clays 1041 (8)
Rockway Dolomite Member, Irondequoit Limestone (Upper Clinton, Silurian)

(new name), western New York and Ontario. W. J. Kilgour 1127 (9)
Rocky Mountain Section of GSA, Proceedings of 16th Annual Meeting, Albuquerque, New Mexico, May 1963. John de la Montagne . . . . . P 115 (7)
RODGERS, JOHN: Citation of William Walden Rubey as Penrose Medalist for 1963 . . . . . P 155 (12)
Rubey, William Walden, Elected to be 1963 Recipient of Penrose Medal . . . P 131 (7)
RUBEY, W. W.: Acceptance of Penrose Medal . . . . . P 157 (12)
San Benito Islands, Baja California, Mexico, Geology of. L. H. Cohen and others . . 1355 (11)
San Juan Mountains, Colorado, Pollen analyses of surface materials from. L. J. Maher, Jr. 1485 (12)
†SANDERS, J. E.; IMBRIE, JOHN: Continuous cores of Bahamian calcareous sands made by vibrodrilling 1287 (10)
SCHLEE, JOHN: Early Pennsylvanian currents in southern Appalachian Mountains 1439 (12)
SCHUMM, S. A.: Sinuosity of alluvial rivers on Great Plains 1089 (9)
Sea-level changes in northern Puget Lowland, Washington, Late Pleistocene glacial events and. D. J. Easterbrook . . 1465 (12)
Sedimentary rocks
  Early Pennsylvanian currents in southern Appalachian Mountains. John Schlee . 1439 (12)
Sedimentology
  Continuous cores of Bahamian calcareous sands made by vibrodrilling. J. E. Sanders; John Imbrie 1287 (10)
  Jeffersonville Limestone (Middle Devonian) of southeastern Indiana. R. D. Perkins 1335 (11)
Seismic refraction profiles, Narragansett Bay, Rhode Island. J. W. Berg, Jr. . . . 1305 (11)
Seismology
  †Tidal strain as possible cause of microseisms and rock jointing. C. D. Holmes 1411 (11)
